- Do not decorate with burning candles.
- Use only certified Christmas lights on this product.
- Do not leave working lighting chains unattended.
- Unplug product when leaving it unattended.

Assembly instructions

All packaging should contain a top section and a bottom section, depending on purchased model (larger trees include middle sections). Tree base is included. Before assembly, remove all parts from packaging.

Tree:*

1. Unfold the tree base and insert the eye bolt(s).
2. Carefully insert the bottom tree section (part A) into the tree base.
During assembly of the tree, make sure all branches are placed in the correct position. Take care not to place unnecessary pressure on the branches when assembling. Please make sure you tighten the eye bolt(s) of the tree base.
3. Next, first tweak the branches of this bottom section to give your tree the desired amount of fullness. For best results, straighten and separate all branch tips. Start with the tips that are nearest the stem.
Please refer to our website for shaping tips: www.everlands-trees.com
4. Continue inserting tree sections (part B and so on).
5. Your tree is now ready for decoration.

Storage instructions

- Before storage, remove all decorations.
- Clean with dry cloth only.
- Carefully remove tree sections, starting from the top.
- Press the tips back up against the branches.
- Put the tree sections back into the box.
- Store the box flat, in a cool dry place.

Disposal instructions

At the end of product life, the product may be recycled, for example at a local Council recycling site. Outer carton – cardboard (widely recycled)
Christmas tree stand and frame – steel (widely recycled)
