## BALLARD DESIGNS.

Customer Service: 800-367-2810 Online: www.ballarddesigns.com

PRODUCT NAME: Mara Mini Shelf

ITEM NUMBER: WS978

ASSEMBLED DIMENSIONS: 1 1/4"H x 8 1/2"W x 6 1/2" Projection

PRODUCTS ARE NOT INTENDED FOR COMMERCIAL USE. UPDATED: 2-13-2020

## REQUIRED TOOLS:

-Phillips Screwdriver, Pencil, Hammer, Drill with 1/4" bit

-Two person assembly suggested.

Ltr.	Qty.	Hardware Included	
А	2	<i>*************************************</i>	Screws
В	2		Wall Anchors

Remove all parts, hardware and protective packaging from carton and carefully arrange on a clean, level, padded surface.

**NOTE:** To avoid accidentally discarding small parts or hardware, retain all carton contents until assembly and installation are complete.

Customer Service: 800-367-2810 Online: www.ballarddesigns.com

STEP 1: Determine location for installation then use a Level and Pencil to mark for both holes in Shelf. NOTE: Maximum support is provided by centering one hole over a Wall Stud and driving Screw (A) directly into Stud.

For hole located in open drywall (no stud) use a Drill with a 1/4" bit to make a small pilot hole.

STEP 2: Gently push Wall Achor (B) into pilot hole then turn into wall using a Phillips Screwdriver. Turn Anchor until flush with wall surface.

Customer Service: 800-367-2810 Online: www.ballarddesigns.com

STEP 3: Place Shelf (C) onto wall aligning both holes over mark(s) or Wall Anchors. Insert a Screw (A) into each hole and use a Screwdriver to firmly tighten.

STEP 4: Confirm Shelf is securely attached to wall. It is now ready for use.

Cleaning & Care:
DO NOT use alcohol based products or spray polisher as they can damage the finish. Dust with soft cloth.
